

Report on academic achievements for Department of Pharmacology

The department of pharmacology has been working hard to contribute to the Gautam Buddha Chikitsa Mahavidyalaya.

The achievements of the Department till date are as follows:

Pharmacovigilance programme – The Adverse drug monitoring Centre under the department has been running the Pharmacovigilance Programme of India since past 4 years. The department in collaboration with the KKBM Subharti Hospital has actively reported adverse drug reactions occurring in the hospital through the centre.

The department has also been successfully celebrating the National Pharmacovigilance week every year from 17th September to 23rd September. There has been active student participation in activities like rangoli, Quiz competition, poster making competitions conducted under the programme based on the theme each year.

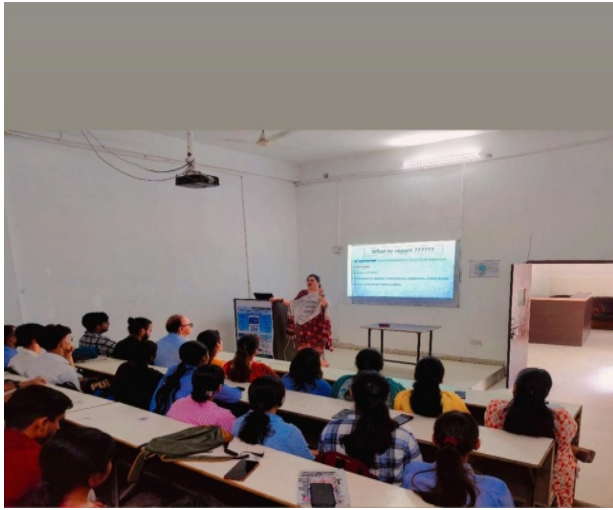

There has been active participation by the faculty as well as JRs in sensitizing the community & patients in the Hospital through lectures, skits or one on one interactions regarding adverse drug reactions & their management.

Lecture to enhance awareness regarding Adverse drug reactions for Nursing staff conducted at GBCM, Dehradun

Lecture & Poster competition to enhance awareness regarding Adverse drug reactions for Pharmacy students conducted every year at Pharmacy college, RBBSU, Kotra, Dehradun.

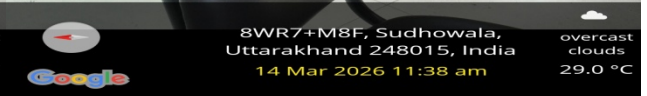

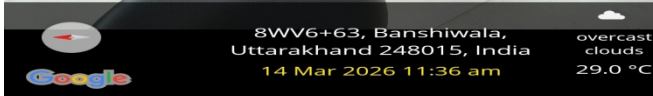

Prescription Audit – The department is actively involved in the Drug & therapeutic committee & subcommittee for monitoring the prescriptions in the Hospital.

Training of regarding Prescription audit for doctors working in K.K.B.M Subharti, Hospital was conducted by the faculty member.

Antibiotic stewardship programme - Conducted Rangoli & poster competition on Rational use of Antimicrobials in collaboration with department of Microbiology.

Participation in various training programs, workshops & conferences by the faculty members.

Academic activities for students like Seminars, role plays & Skits were conducted regularly for all batches.
